Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio. If you insist upon running these non-news pieces, make it clear where they come from so the public is informed!!!

Sincerely,
Ona Harshaw

Television is indeed a 'vast wasteland' as was so aptly stated in its earlier years. Now with fake news and arranging stories portrayed as news only exemplifies its wasteland characteristics that continue through corporate sponsors and their chicanery. The FCC must take strong action and put an end to this public betrayal of our public airways. The time is NOW! And the place is OHIO!

Sincerely,
william smith

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Elahu Gosney

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Samer Samaan

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Donald Greenwalt

While this is an issue that has been taken up by more and more people, independent mediamakers started exposing this practice in the mid-1990s, and it continues to be used by presidential campaigns. This practice erodes any kind of public communications and certainly erodes an important democratic practice--local, state and national elections.

STOP FAKE NEWS IN OHIO NOW.

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

The FCC must do its job concerning TV news. Act immediately to stop fake news in Ohio. And require television to be more relevant to their communities, as well as balanced in reporting national and international news. For example, there are many more people dying of AIDS in Africa than of war in Iraq, but we don't hear about it enough. Global warming and pollution are treated as side issues, when these could cause severe flooding and droughts in the next few years. I, for one, think that sports should be balanced with reporting on the arts, because women need some entertainment too. And I know very few people interested in the lives of "celebrities;" wouldn't it be better if that time were given to reporting on local activities and entertainment? Then there is the big issue of who may deliver internet, television, telephone, and radio to our homes: where is all that fiber-optic cable that was promised about 15 years ago?

Sincerely,
Elizabeth Dowling

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Mark Cosgriff

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Matthew Wagner

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Evidently, it can't be left to the integrity of broadcast companies to reject news reports designed to deceive people into believing the report is objective. External providers of news reports should be identified so that people can make up their mind about its veracity. Please act immediately to stop fake news in Ohio.

Sincerely,
Gregory Hoke

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Desiree Knauer

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

This is a way to manipulate people into buying products based on an authority individuals believe is someone who is objective.

An analogy: If you had a friend who you believe has your best interests at heart take money from someone else to tell you something that may or may not be beneficial to your decision-making, don't you think your friend should at least tell you? If not, then your friend at least shouldn't take the money.

These are public airwaves leant to these stations to use. If they manipulate and lie to the public for self-interest (the very definition of corruption), then they should have their license revoked...or at the very least told to stop.

Sincerely,
Jim Wendelken

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Richard James

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Sincerely,
Stephanie Stoller

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

WSYX-6 and WYTV-33 have been airing corporate promotional material as real news without naming the source of these materials, thus deceiving the public. Public discourse in this country is bad enough without having it further polluted by allowing corporation corporate propaganda to be presented as impartial news reporting.

I urge you to take action at once to investigate this abuse, impose appropriate penalties, and take steps to prevent this practice in the future.

Thank you for acting to clean up the air waves.

Sincerely,
Janet Kalven

Subject: Defer or Deny WSYX Renewal.

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

WSYX is presently in a renewal cycle. It is the responsibility of the FCC to review their public comments file. Additionally, these breaches of regulations and public trust should weigh substantially toward denial of the renewal.

In the absence of reform and due to flagrant disregard of the regulations, the renewal should be used as the appropriate disciplinary vehicle. This ownership should not be allowed to maintain ownership in clear violation of FCC rules & regulations.

Sincerely,
Paul Cooper

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio. Don't be a cog in their machine.

Sincerely,
J. Quigley

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Several local TV stations were been exposed in April for airing promotional corporate "video news releases" as real news. This is NOT real news!

WSYX-6 and WYTV-33 have continued to air fake news reports and never identify the source of the material, which is their corporate sponsors. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

There is an immediate necessity for the FCC to investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio!!!

Sincerely,
Rebecca Roebuck

Come on, folks, are you "fake media", or are you earning your place in the public trust as an organization that promotes legitimate interests of your listeners? Can the corporate-paid propaganda and act like real journalists, please... or at least qualify these segments as the advertisements that they are!

Sincerely,
Greg Pace

This type of manipulation of the public airways, especially under the guise of "news" is unethical, and illegal. There is absolutely no place for this on the air waves of the United States when marketers can buy advertising in a multitude of media types and markets.

It is the responsibility of the FCC to stop this deception immediately in Ohio.

Subject: Still Fake TV News in Ohio

Dear Federal Communications Commission,

In April, The Center for Media and Democracy and Free Press exposed several local television stations that aired promotional corporate "video news releases" as real news. Originally, five Ohio stations aired fake news broadcasts.

Since then, two of these stations -- WSYX-6 and WYTV-33 -- aired fake news reports. At no time during these newscasts did the stations identify the corporate sponsors as the source of the material. This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Please act immediately to stop fake news in Ohio.

Take the time to find out what is real and what is not; the news should be as close to the objective truth as possible.

Sincerely,
Jeffrey Willis

This deception violates FCC's sponsorship identification rules and broadcasters' responsibility to serve the public.

The FCC must investigate this abuse in Ohio, clarify disclosure requirements and penalize all stations that air fake news.

Recently, however, fake news has continued to permeate our airwaves. Fake experts and doctors, lawyers and politicians all giving their testimonies on the local news. Talking about different issues that pertain to the public at large but giving their own slant to it and acting like their opinion is truth. I'm not one for this kind of behavior in the media and I hope you're not either.

Sincerely,
Justin Schafer
